DECLARATION UNDER 37 CFR §1.132

Sir:

Applicant respectfully requests the Examiner to consider the following declaration and

the attached evidence in the above referenced application.

Ser. No.: 09/783,779   1   42390P10924

Applicant respectfully declares the following:

The present application, Ser. No. 09/783,779, was filed on February 14, 2001.

On or about February 25, 2000, the document, "Willamette** Processor Software

Developer's Guide," Intel order number 245355-001 (hereafter "Willamette SDG") was posted

for public download at:

> http://developer.intel.com/design/processor/wmtsdg.htm.

The Willamette SDG, was not publicly available more than one year prior to the filing
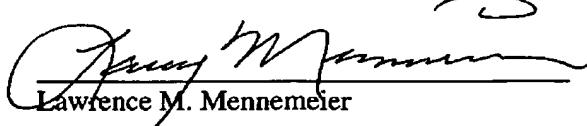

date of February 14, 2001.

Applicant submits as evidence of the above conclusion Exhibit 1, comprising a printout

of the web page at developer.intel.com for downloading the Willamette SDG, which indicates

that the posting date of the Willamette SDG for public download was February 25, 2000.

At least from the above referenced exhibit, it is evident, and Applicant believes that, the

date the Willamette SDG became available for public download was February 25, 2000 and that

the Willamette SDG was not publicly available more than one year prior to the filing date of

February 14, 2001.

Ser. No.: 09/783,779   2   42390P10924

I declare that all statements made herein of my own knowledge are true and that all

statements made on information and belief are believed to be true.

Respectfully submitted,

Dated: //-ə/ , 2005

Lawrence M. Mennemeier

Intel(R) Pentium(R) 4 Processor Software Developer's Guide

Willamette is the code name for the next generation of 32 bit Intel® Architecture (IA-32) processors. It is the first member of a new family of processors that are the successors to the Intel P6 family of processors, which includes the Intel® Pentium® Pro, Pentium II, and Pentium III processors.
